## Professional Summary

Dedicated IT leader with expertise in full-stack web development, IT operations, and team management. Proven track record in optimizing infrastructure, providing technical support, and developing innovative applications. Eager to contribute technical and leadership skills in help desk, IT support, software development, or AI-focused roles within dynamic tech environments.

## Professional Experience

### IT Team Lead

Amplifier Logistics Company, Austin, TX

January 2021 – Present

- Led IT operations and technology implementations to streamline business processes and enhance efficiency.
- Collaborated with cross-functional teams to integrate technology initiatives and align IT strategies with organizational goals.
- Mentored junior staff, fostering continuous learning and improvement while managing vendor relationships and contract negotiations.
- Oversaw IT infrastructure reliability and security, including user profile management for all employees and temporary staff.
- Delivered technical support for hardware and software issues, such as RF gun troubleshooting, WiFi connectivity, and configuring monitors and scales.

## Education

Full Stack Web Development Bootcamp , Oracle Generative AI Courses

## Key Projects

### Twitter Bot for Crypto Scam Detection (GitHub Repository)

- Built an automated bot using Puppeteer to detect, filter, and report scam-related tweets based on engagement and relevance.
- Incorporated automated alerts and reporting features to enhance user safety.

### Internal Client Data Tool (Private Company Tool)

- Developed a full-stack web application to support my company's client service team.
- Retrieves and displays real time data on a custom report page.

### **Elastic Disaster Recovery (EDR) Plan**

- Designed and integrated an EDR plan with AWS to improve business continuity and disaster recovery capabilities.

### **Linktree Clone** (GitHub Repository | Live Demo)

- Created a personal alternative using HTML, CSS, JavaScript, and FontAwesome icons, with integrated social media links and share buttons.

### **Python & Machine Learning Exploration**

- Actively learning Python to expand skills in machine learning and automation.

### **Technical Skills**

- **Languages:** JavaScript, HTML, CSS, Python, SQL
